8 January 1964

CURRENT INTELLIGENCE MEMORANDUM

SUBJECT: Review of 1963 ICBM Tests

The Soviets test-fired [] ICBMs in 1963, maintaining the level of testing set in 1961 and 1962. The test program showed continuing efforts to improve the reliability, capability, and flexibility of the Soviet systems.

[]

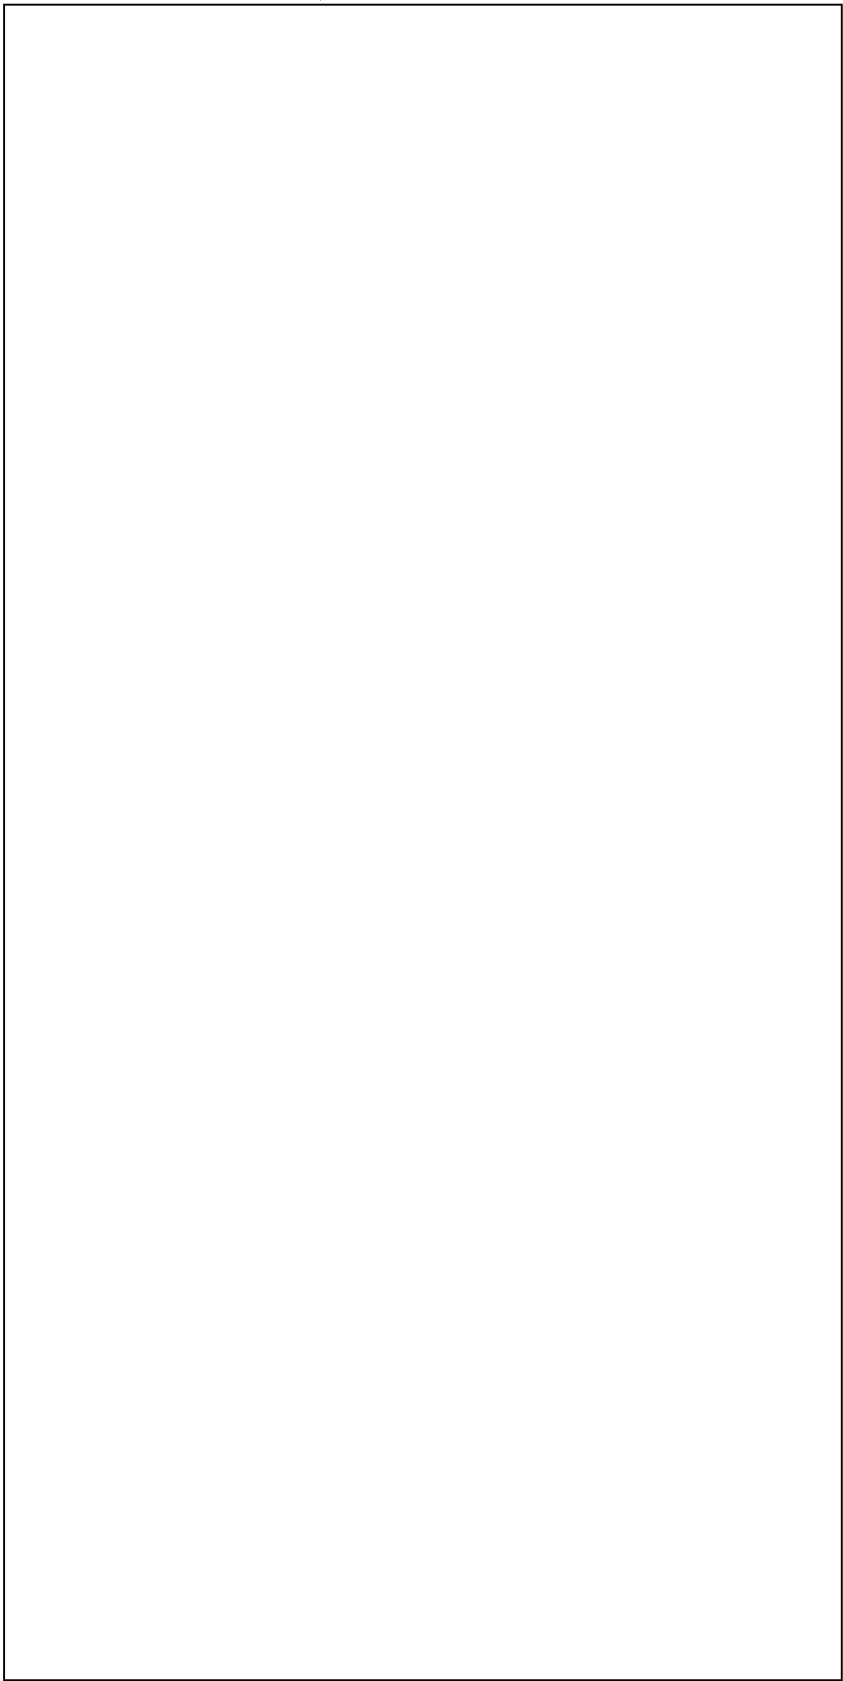

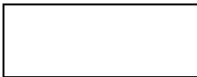

The Soviets apparently have begun to evaluate their operational ICBMs to determine systems reliability, compatibility, and the state of training.
